My morning routine

My name is Bob. Each day I drive my kids to school. My daughter goes to a school that's far from our house. It takes 30 minutes to get there. Then I drive my son to his school. It's close to my job. My daughter is in the sixth grade and my son is in the second. They are both good students. My daughter usually sings her favorite songs while I drive. My son usually sleeps.

I arrive at the office at 8:30 AM. I say good morning to all my workmates then I get a big cup of hot coffee. I turn on my computer and read my email. Some days I have a lot to read. Soon I need another cup of coffee.

A handwritten signature in black ink, appearing to read 'Bob', is located in the lower right quadrant of the page. The signature is fluid and cursive, with a long horizontal stroke extending to the left.

The pet store

George is at the pet store, looking at what kind of pet he might want to get for his birthday. George asked if he could have a horse, but his parents said no because horses are too big.

First, he sees dogs and cats. Baby dogs are called puppies. Baby cats are called kittens. George likes them because they are easy to take care of and can play a lot, but they will get bigger. George wants a small pet.

Then George sees animals that have to live in a cage. He sees rabbits, guinea pigs, and mice. Mice are what you call more than one mouse. He likes these animals because they are small. Birds live in cages too. George sees a parrot and a canary. He likes them all, but he doesn't want to clean the cage.

George sees the animals in tanks. The tanks full of water have fish and turtles in them. He thinks about a goldfish but decides he likes the turtles more. There are also tanks with rocks and sand that have snakes, spiders, and scorpions, but George is afraid of them. George likes the turtles best, but they won't fit in the little fishbowls. Turtles need bigger tanks, so they can swim sometimes and hide sometimes.

George decides he wants to get a turtle for his birthday. He buys a book on how to take care of a turtle and a list of what types of turtles the store has.

Doctor

Doctor Klein: Good morning, Cecilia, how are you feeling today?

Cecilia: I do not feel very well, Doctor Klein. I hope that you can treat my illness.

Doctor Klein: I'm sorry that you feel very sick. Tell me some of your symptoms so that I can give you a proper diagnosis.

Cecilia: I have not felt well since yesterday afternoon. The symptoms began with a headache and a gradual sore throat. I drank tea with lemon and honey, and I went to bed early. However, I am extremely exhausted, and I don't feel any better today.

Doctor Klein: I have seen these symptoms recently in some of my other patients. I'll check your temperature and examine your throat in order to give you a proper diagnosis.

Cecilia: Thank you, Doctor.

Doctor Klein: Open up and say "Ahhhhhh..."

Cecilia: "Ahhhhhh..."

Doctor Klein: Oh, my! I can already see that your throat is very red. Your temperature of 100 degrees indicates that you are running a mild fever. I am afraid that you might have the flu.

Cecilia: What is the best way to cure my symptoms?

Doctor Klein: You will need plenty of rest, and you should drink fluids frequently in order to stay hydrated. You've also just started to show symptoms, so I can prescribe you a medication that can reduce fever and shorten the duration of your illness.

Cecilia: Should I stay home from work as well?

Doctor Klein: Yes, you should remain in bed until the fever breaks. You should also wait until 24 hours after the fever has broken before you return to work. You do not want to risk getting your coworkers sick as well.

Cecilia: I suppose I will just take it easy and relax for a couple of days. Thank you, doctor, for all of your help!

Doctor Klein: No problem! Try your best to rest for a couple of days. I hope you feel better soon!
